REGENESYS
BUSINESS SCHOOL
Awakening Potential

Welcome to Regenesys

The purpose of Regenesys is to help individuals and organisations achieve their dreams by awakening their potential. We believe that every human being has a unique talent and an inner power to achieve their dreams. However, this potential is blocked by fears and beliefs of a self-limiting nature.

We help our students to break their fears, change their self-limiting beliefs and achieve greatness by awakening their potential. We do this by providing high-quality management and leadership development programmes which develop individuals holistically – intellectually, emotionally, spiritually and physically.

Regenesys is a special place of higher learning, matched by none. It provides life-changing opportunities to its students to pursue their careers with large multinationals or embark on their own entrepreneurial ventures.

With campuses in South Africa, India, and Nigeria, Regenesys is an international business school with over 200,000 students and alumni from 190 countries, and over 1000 corporate clients, of which majority are large multinationals such as Mercedes Benz, Microsoft, Coca Cola, and Barclays, to name a few. Regenesys alumni occupy top leadership positions in multinational corporations and government institutions all over the world, and form a very influential alumni network which supports its members with business opportunities across the world.

Whatever dreams you decide to pursue, Regenesys will be there for you every step of the way, always encouraging you to dream bigger and never to give up.

I wish you a great success on your journey of learning, leadership development and making our world a better place. We would be delighted to be your life-long companion on that journey.

Wishing you happiness.

- Advanced Human Resource Management
- Financial Management and Management Accounting
- Organisational Strategy, Planning and Management
- Fundamentals of Business Research

Electives: Choice of two *

- Advanced Marketing Management
- Advanced Operations Management
- Business Ethics and Corporate Governance
- Economics
- Sales Management
- Spiritual and Emotional Intelligence

*Based on student numbers

Entry Requirements

- A 3 year degree (NQF Level 7) and relevant work experience.

Programme Structure

The PDBM is an NQF Level 8 qualification, with 120 credits, offered over a period of 12 months.

BACHELOR OF BUSINESS ADMINISTRATION (BBA)

Programme Overview

This programme provides a fundamental education in business, management and leadership concepts, principles, theories, and models and prepares graduates for a broad range of job opportunities.

Core Modules

- Strategic Management I, II, III
- Human Resource Management I, II
- Project Management I, II
- Financial Management I, II
- Marketing Management I, II
- Economics I, II
- Business Law
- Research Methodology

General Electives: Choice of one in third year

- Change Management
- Negotiation and Conflict Management
- Information and Communication Technology
- Quality and Customer Relations Management

Major Electives: Choice of one in third year

- Human Resource Management III
- Project Management III
- Financial Management III
- Marketing Management III
- Economics III

Entry Requirements

- An NQF Level 4 qualification (e.g. Matric exemption) and basic computer skills or Higher Certificate in Business Management.

Programme Structure

The BBA is an NQF Level 7 qualification, with 360 credits. The qualification is offered over a minimum period of 3 years.

BACHELOR OF BUSINESS ADMINISTRATION (BBA): BANKING

Programme Overview

This programme provides a fundamental education in banking, management and leadership concepts, principles, theories, and models and prepares graduates for a broad range of job opportunities within banking sector.

Core Modules

- Banking I, II, III
- Credit Management I, II, III
- Economics I
- Financial Management I, II
- Information and Communication Technology I
- Introduction to Strategic Management
- Marketing I, II
- People Management

Electives: Choice of one in third year

- Financial Management III
- Marketing Management III
- Strategic and Change Management III

Entry Requirements

- An NQF Level 4 qualification (e.g. Matric exemption) and basic computer skills or Higher Certificate in Business Management.

Programme Structure

The BBA: Banking is an NQF Level 7 qualification, with 360 credits. This qualification is offered over a minimum of 3 years.

BACHELOR OF BUSINESS ADMINISTRATION (BBA): RETAIL MANAGEMENT

Programme Overview

This programme provides a fundamental education in retail management concepts, principles, theories, and models and prepares graduates for a broad range of job opportunities within retail sector.

Core Modules

- Economics I
- Financial Management I, II
- Information Communication Technology
- People Management I, II,
- Retail Management I, II, III
- Retail Marketing I, II
- Retail Strategic Management I, II

Electives: Choice of two*

- Financial Management III
 - Retail Marketing III
 - People Management III
- *Based on student numbers

Entry Requirements

- An NQF Level 4 qualification (e.g. Matric exemption) and basic computer skills or Higher Certificate in Business Management.

Programme Structure

The BBA: Retail Management is an NQF Level 7 qualification, with 360 credits. This qualification is offered over a minimum of 3 years.

BACHELOR OF ACCOUNTING SCIENCE (BCOMPT)

Programme Overview

This programme develops professional knowledge, skills, and applied competencies in the fields of accounting, auditing, financial management and taxation. The programme is a stepping stone on a learning journey towards the ultimate achievement in the accounting profession – the chartered accountant.

Core Modules

- Economics I
- Financial Accounting, I, II, III
- Business Management I
- Computer Skills I
- Business Communication I
- Commercial Law I
- Business Ethics I
- Mathematics I
- Auditing II, III
- Taxation II, III
- Statistical Analysis II
- Company Law II
- Management Accounting II
- Accounting in a Computerised Environment II
- Cost and Management Accounting III
- Risk and Financial Management III
- Corporate Governance III

Entry Requirements

- Competent in Mathematics, written and oral communication skills at NQF Level 4
- A Senior Certificate endorsement
- National Senior Certificate granting admission to Bachelor studies
- A relevant NQF Level 6 qualification from an accredited institution as per SAQA requirements

Programme Structure

The BCompt is an NQF Level 7 qualification, with 360 credits. This qualification is offered over a minimum period on 3 years.

HIGHER CERTIFICATE IN BUSINESS MANAGEMENT (HCBM)

Programme Overview

Core Modules

- Fundamentals of Business Management
- Fundamentals of Human Resource Management
- Fundamentals of Financial Management
- Principles of Marketing

Electives: Choice of two *

- Information and Communication Technology
- Project Management
- Retail Management
- Credit Management
- Quality and Customer Service Management
- Fundamentals of Sales Management
- Negotiation and Conflict Management
- Fundamentals of Operations Management

*Based on student numbers

Entry Requirements

- An NQF Level 4 qualification (e.g. Matric exemption or equivalent) and basic computer skills.

Programme Structure

The Higher Certificate in Business Management is an NQF Level 5 qualification, with 120 credits. This qualification is offered over 12 months.

HIGHER CERTIFICATE IN BUSINESS MANAGEMENT (HCBM): CREDIT BANKING

Programme Overview

This programme develops fundamental management competencies which are required for a career in credit banking.

Core Modules

- Credit Management
- Fundamentals of Business Management
- Fundamentals Financial Management
- Introduction to Banking
- Marketing Management
- People Management

Entry Requirements

- An NQF Level 4 qualification (e.g. Matric exemption or equivalent) and basic computer skills.

Programme Structure

The Higher Certificate in Business Management: Credit Banking is an NQF Level 5 qualification, with 120 credits. This qualification is offered over 12 months.

HIGHER CERTIFICATE IN BUSINESS MANAGEMENT (HCBM): RETAIL MANAGEMENT

Programme Overview

This programme develops fundamental management competencies which are required for a career in retail management.

Core Modules

- Fundamentals of Business Management
- Fundamentals of Financial Management
- Retail Marketing
- People Management
- Retail Management
- Customer Service Management

INTERNATIONAL LEADERSHIP DEVELOPMENT PROGRAMME (ILDLP)

The Regenesys International Leadership Development Programme (ILDLP) is designed for leaders and managers to develop competencies required for success in the new digital world. The programme explores cutting-edge knowledge, global trends and best practice in leadership, entrepreneurship, strategy, digital transformation, and innovation, from some of the leading, fastest-growing, and smartest economies - the USA, UAE / Dubai and India.

The programme has been developed for managers and leaders from business, government and state-owned enterprises to deliver a truly global and life-changing experience, to inspire and energise delegates, and to develop Emotional (EQ) and Spiritual (SQ) intelligences.

The ILDP is an intensive programme comprising of two modules delivered over a period of three months. The first module is a two-week international study tour to Dubai, Mumbai and New York. The second module is one week study block at Regenesys Business School in Sandton, the heart of business in South Africa. In addition to learning, the programme includes networking, cultural, team-building, and sightseeing activities.

The ILDP programme combines robust academic rigour with practical networking and business development opportunities. Participants are exposed to applied learning using innovative learning techniques, master classes, exposure to 'Giants of Industry', focused networking opportunities and commercial matching to sector-level opportunities. The programme is facilitated by global faculty from four countries comprising of specialist experts and top business leaders.

Regenesys Business School offer cutting-edge digital programmes to prepare the managers, professionals, entrepreneurs and leaders to excel in the digital age.

ARTIFICIAL INTELLIGENCE

Programme Overview

The Artificial Intelligence (AI) programme explores the development of computer systems which are capable of performing tasks that normally require human intelligence.

Programme Content

- The evolution and future of Artificial Intelligence
- An introduction to terminologies, definitions, and concepts of AI and related disciplines such as Machine Learning, Robotics, Data Science, Blockchain, and the Internet of Things
- Overview of principles, techniques and business applications of Artificial Intelligence
- An introduction to problem solving, logic, search algorithms, data structures, neural networks, and programming in AI language tools
- Integration of AI into your organisation to promote innovation, automation, efficiency, and improved customer experience, in order gain a strategic competitive advantage
- Digital transformation strategy
- Developing an AI strategy to ensure a sustainable company of the future
- Developing an AI action plan, KPIs and resources needed
- Critical success factors to successfully manage AI initiatives

Programme Structure

2 Days of contact learning or 16 hours of online learning delivered over a period of 1 month. This programme is offered at both an introductory and advanced level.

DIGITAL MARKETING

Programme Overview

The Digital Marketing programme introduces key principles of marketing, advertising and sales in the digital environment. Digital Marketing techniques on Facebook, Google, LinkedIn, Instagram, Twitter, YouTube, and other emerging social media platforms will also be discussed. The programme explores search engine optimisation, web analytics, mobile marketing, email marketing and digital marketing campaign management. The development of a Digital Marketing strategy, plan and critical success factors are also explored.

Programme Content

- An introduction to Digital Marketing terminologies, definitions, and concepts
- The evolution of Digital Marketing
- Digital Marketing on Facebook, Google, LinkedIn, and YouTube
- Advertising via Instagram, Twitter and other emerging social media platforms
- Digital Marketing campaign management, Search Engine Optimisation, and web analytics
- Mobile Marketing
- Email Marketing
- Developing Digital Marketing strategy to gain a strategic competitive advantage
- Digital Marketing critical success factors

Programme Structure

2 Days of contact learning or 16 hours of online learning delivered over a period of 1 month. This programme is offered at both an introductory and advanced level.

ROBOTICS

Programme Overview

This programme introduces participants to the field of Robotics and covers a range of disciplines related to electronics, engineering processes, computer science, and mechanics which are required for designing, developing and programming robots.

Programme Content

- Introduction to Robotics terminologies, definitions, and concepts
- The evolution of Robotics
- Introduction to problem solving and logic
- Algorithms and Coding
- Introduction to electronics and electric circuits
- Mechanical systems, sensors, actuators, manipulators and micro controllers
- Application of Artificial Intelligence, Neural Networks and Reinforcement Learning in Robotics
- Digital Transformation Strategy
- Critical success factors of Robotics

Programme Structure

2 Days of contact learning or 16 hours of online learning delivered over a period of 1 month. This programme is offered at both an introductory and advanced level.

CODING

Programme Overview

Digital literacy is the foundation upon which Coding skills are built, as such, this programme develops coding skills for solving real-life problems in the new digital world. The programme explores core programming skills and then develops proficiency in popular future-oriented Coding languages, paving the way to a career in software engineering.

Programme Content

- Introduction to Coding terminologies, definitions, and concepts
- The evolution of Coding
- Introduction to problem solving, analytic logic, and information theory
- How computers work: introduction to computer science, algorithms, and the internet
- Introduction to the fundamentals of software engineering, Coding and some of the fastest growing Coding languages
- Introduction to Data Science, data structures, accessing, filtering, comparing, managing data, and utilising popular software
- Coding a website using cutting-edge technologies and Coding languages
- Introduction to Artificial Intelligence, Robotics, Machine Learning, and Blockchain
- Critical success factors of Coding

Programme Structure

2 Days of contact learning or 16 hours of online learning delivered over a period of 1 month. This programme is offered at both an introductory and advanced level.

DATA SCIENCE

Programme Overview

This programme provides participants with the knowledge, skills and experience associated with Data Science. The participants will explore a range of tools, algorithms, Machine Learning and statistical techniques with the aim of discovering hidden insights and patterns from raw data in order to inform scientific business decision making. The programme covers key areas of Data Science like Data Analytics, Machine Learning and Artificial Intelligence.

Programme Content

- Introduction to Data Science terminologies, definitions, and concepts
- The evolution of Data Science
- Introduction to relevant mathematical and statistical analysis techniques, algorithms, programming, visualisation and cloud concepts
- Introduction to data structures, cleaning, accessing, filtering, analysing, using, communicating and managing data utilising cutting-edge software
- Introduction to Machine Learning, Artificial Intelligence, Robotics, and Blockchain
- Modern application of Data Science
- Digital Transformation Strategy
- Critical success factors in the management of Data Science projects

Programme Structure

2 Days of contact learning or 16 hours of online learning delivered over a period of 1 month. This programme is offered at both an introductory and advanced level.

MACHINE LEARNING

Programme Overview

This programme develops Machine Learning skills for solving real-life problems in the new digital world. Machine Learning combines computer science and statistics to analyse raw real-time data, identify trends, and make predictions. The participants will explore key techniques and tools to build Machine Learning solutions for businesses.

Programme Content

- An introduction to terminologies, definitions, and concepts of Machine Learning
- The evolution and future of Machine Learning
- Introduction to relevant Machine Learning techniques, decision trees, algorithms, datasets, and statistical techniques
- Overview of principles, techniques and business applications of Machine Learning
- Supervised and Unsupervised Learning
- Classification, regression, and clustering
- Performance evaluation of Supervised and Unsupervised Learning algorithms
- Deep Learning for business
- Best practices in Machine Learning
- Introduction to Artificial Intelligence, Robotics, Data Science and Blockchain
- Machine Learning challenges and the future

Programme Structure

2 Days of contact learning or 16 hours of online learning delivered over a period of 1 month. This programme is offered at both an introductory and advanced level.

BLOCKCHAIN

Programme Overview

This programme provides participants with the knowledge, skills, and experience of Blockchain technology. The participants will explore the integration of Blockchain technology within their company and develop their own Blockchain solution. The programme introduces and evaluates the most popular Blockchain platforms such as Ethereum, IBM, Stellar, Hyperledger, and Microsoft Azure. The participants will explore a range of popular tools to build a Blockchain solution.

Programme Content

- Introduction to Blockchain terminologies, definitions, concepts and the philosophy of decentralisation
- The evolution of Blockchain applications, innovation, and disruption across various industries
- Blockchain technology foundational structures, design, building blocks, cryptography, nodes and transactions
- Blockchain components – decentralised apps and smart contracts, network types, consensus mechanisms, and data storage
- Introduction to Bitcoin, Ethereum, IBM, Stellar, Fabric, and Microsoft Azure, and comparative evaluation
- Using cutting edge blockchain tools to build Blockchain applications
- Blockchain and law, regulatory risks and legal challenges
- The future of Blockchain technology
- A critical assessment of success and failure factors in the management of Blockchain initiatives

Programme Structure

2 Days of contact learning or 16 hours of online learning delivered over a period of 1 month. This programme is offered at both an introductory and advanced level.

CYBERSECURITY

Programme Overview

This programme provides participants with the knowledge, skills, and experience of Cybersecurity management. The participants will gain an understanding of Cybersecurity and network threats, vulnerabilities, data security, risk management, development of a Cybersecurity plan, an emergency management procedure, and disaster recovery. The programme will explore several of the most popular and recent global cybercrimes committed, their impact and lessons learned.

Programme Content

- An introduction to terminologies, definitions, and concepts of Cybersecurity – firewalls, advanced hackers, malware, viruses, trackers, phishing, trojans, zero-days, exploit kits, and identity theft
- The evolution and future of Cybersecurity
- Review of the most popular and recent global cybercrimes committed
- Cybersecurity and network threats, vulnerabilities, hacker techniques, tracking down hackers and forensics of Cybersecurity
- Data security
- Development of a Cybersecurity plan, risk management, emergency procedure, and disaster recovery
- Security, privacy and patching for the most popular operating systems such as Windows, MacOS and Linux
- Cyberlaw, ethics, government spying, and mass surveillance
- Industry best practices to achieve a robust Cybersecurity outcome
- Key success and failure factors in Cybersecurity

Programme Structure

2 Days of contact learning or 16 hours of online learning delivered over a period of 1 month. This programme is offered at both an introductory and advanced level.

Regenesys Business School was founded in 1998 by Dr Marko Saravanja, Dr Penny Law and Mr William Vivian. The purpose of Regenesys is to make our world a better place by developing conscious leaders and managers. Regenesys approaches human development holistically – intellectually, emotionally, spiritually, and physically. In order to provide a comprehensive suite of services to students, staff, and alumni, additional institutions were formed, as presented in the diagram below.

Regenesys Business School

Since inception, 200,000 students and alumni from 190 countries have attended Regenesys programmes: MBA, Masters in Public Management, Postgraduate Diplomas, Certificates, Bachelors programmes, and Executive Education programmes. Regenesys' top corporate clients include significant local and international corporates, Mercedes Benz, Microsoft, State Bank of India, Coca Cola, Barclays and thousands of others.

Regenesys India

Founded in 2013. It provides Executive Education, and academic support functions to the Regenesys Group.

Regenesys Nigeria

Founded in 2013. It provides Executive Education and Digital Programmes in Nigeria and West Africa.

Regenesys Foundation

Founded in 2015. The Regenesys Foundation raises funds to provide bursaries to deserving, but financially disadvantaged students, to fund innovation, research and the development of new programmes and technology. The Regenesys Foundation is a registered Section 18 non-profit public-benefit organisation (PBO) and is overseen by an independent Board of Trustees. The Foundation has provided free education content to 50,000 students across the world.

MyWealth Investments

Founded in 2015. MyWealth helps Regenesys students achieve financial freedom by learning about stock market trading, investments, breaking their fear of money, and transforming their self-limiting beliefs from a poverty to an abundance mentality. The company provides student loans and customised financial solutions to individuals to achieve their education goals.

Dananda Talent

Founded in 2017. Dananda Talent assists Regenesys students to find employment, to provide internships, and to provide recruitment services to the Regenesys Group of Companies and for external clients.

Success Tours

Founded in 2018. Success Tours provides travel and accommodation services for Regenesys executive leadership development programmes, international study tours, and to Regenesys students, alumni, staff and corporate clients.

BRICS Institute

Founded in 2018. It provides research, consulting and executive leadership development programmes between BRICS member countries. The BRICS Institute unlocks business opportunities within the BRICS market of three billion people.

Urban Wellbeing

Founded in 2018. It provides health and wellness services to Regenesys students, staff and clients. Some of the key activities include yoga, meditation, healthy eating, cooking classes, stress management, and Thai-Chi.

Reg Cafe

Founded in 2017. Reg Cafe provides healthy food to Regenesys students, staff, and external clients, and promotes healthy eating.

ACCREDITATION, REGISTRATION AND ASSOCIATIONS

Regenesys is accredited by and registered with several education and/or training authorities, including the Council on Higher Education (CHE), the South African Qualifications Authority (SAQA) and the Financial Services Board (FSB).

Higher Education Accreditation and Registration
